

## Innovative water optimisation for the catering industry

- Efficient maximum capacities in the smallest spaces thanks to High Efficiency Technology (HET)
- Cost efficient small sizes ideal for compact catering equipment
- Flexible same filter head for all cartridge sizes
- Simple quick, uncomplicated filter change

#### Unique capacity of

- 14,400 litres for vending machines
- 12,000 litres for coffee machines
- 9,100 litres for ovens/steamers

### **BWT** bestmax water optimisation systems

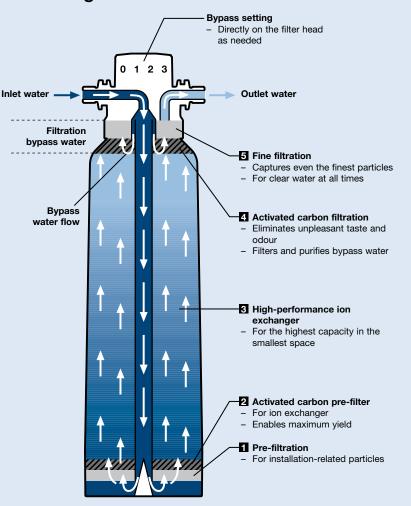

BWT bestmax is the all-round filtration solution for unique coffee water, ideal water for vending machines and optimal steam generation for ovens and combi steamers. Simple and practical – specifically developed for the wide ranging requirements of the catering industry. Thanks to new High Efficiency Technology (HET) from BWT water+more, BWT bestmax range of filter cartridges, delivers superior water optimisation.

**Your benefits:** Consistently high quality water for all hot and cold drinks, in cups and mugs, in the kitchen and the bakery, for all snacks and bakery products.

#### BWT bestmax water optimisation stands for

- Highest efficiency with 5× filtration
- Highly efficient hard water treatment for scale protection
- Connection technology for all filter types & sizes
- Simple filter exchange
- Direct, one-off bypass setting at the filter head
- Includes filtration of the bypass water
- Can be used horizontally and verticallyAutomatic shut-off valve when
- changing filter Back flow shut-off valve integrat
- Back flow shut-off valve integrated in filter head

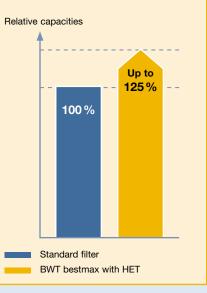

## 5 stage water optimisation with BWT bestmax filter cartridges

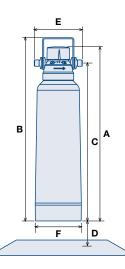

#### The new capacity dimension from BWT water+more

As the innovation leader BWT water+more continually develops its water optimisation filter systems. With new "High Efficiency Technology" (HET), BWT water+more is once again setting new benchmarks in the market.

Following sophisticated research by BWT engineers, chemists and water technologists we are proud to announce a new dimension of filter capacity, efficiency and safety.

## High Efficiency Technology (HET) – High Efficiency Filtration

#### For the highest efficiency and safety in water optimisation

#### BWT bestmax - part of an extensive product range

The BWT water+more solution can satisfy almost any water optimisation requirement in the catering sector.

All products feature a tried and tested universal filter head that includes an automatic shut-off valve, non-return valve and bypass adjustment. Each filter cartridge is compact and space-saving and can be replaced quickly and easily.

## The world's most innovative product range!

BWT bestmax – economical protection against scale, ensuring the best possible taste BWT bestmax PREMIUM – innovative protection against scale with the unique AromaPLUS formula BWT besttaste – clear, particle-free water with activated carbon filtration BWT bestmin – perfect mineralisation for your water BWT bestprotect – optimal protection against scale and corrosion from low ph BWT bestdemin – optimal demineralisation for virtually salt-free water BWT besteam EXTRA – perfect pure steam even with high salt content

## Water optimisation from BWT water+more for:

Coffee machines

- Vending machines
- Ovens/Combi steamers
- Ice-cube machines
- Dishwashers

Why not ask about a customised solution?

Standard bypass setting = 1. The bypass setting "0" should be chosen for appliances that are very sensitive to scale. As a result, the typical capacities reduce by 10%. The capacities may fluctuate by up to  $\pm 5\%$  depending on the local water quality and flow speed.

\* °dKH = German temporary hardness
